

# 2-AMINOFLUORENE

## 1. IDENTIFICATION OF SUBSTANCE / PREPARATION AND THE COMPANY UNDERTAKING

Chemical name:	2-Aminofluorene
Product code:	PPC-AF10
Synonyms:	-
Recommended uses:	For R&D purposes
Supplier:	Xenometrix AG, Gewerbestrasse 25, CH-4123
	Allschwil, Switzerland
Emergency contact numbers:	Telephone: +41 61 482 14 34
	Fax: +41 61 482 20 72

2. HAZARDS IDENTIFICA	ΓΙΟΝ	
Classification:	According to	regulation (EC) No 1272/2008
Labelling and	Pictogram:	$\wedge \wedge$
precautionary statements:		
	Signal word:	Warning.
Hazard statement(s):	H302	Harmful if swallowed.
	H341	Suspected of causing genetic defects.
	H351	Suspected of causing cancer.
Precautionary statement(s):	P202	Do not handle until all safety precautions have been read and understood.
	P264	Wash hands thoroughly after handling.
	P270	Do not eat, drink or smoke when using this product.
	P281	Use personal protective equipment as required.
	P301 + P312	IF SWALLOWED: call a POISON CENTER or
		doctor/physician if you feel unwell.
	P308 + P313	IF exposed or concerned: Get medical
		advice/attention.
	P405	Store locked up.
	P501	Dispose of contents/container in accordance with local/regional/national/international regulation.

3. COMPOSITION / INFORMATION ON INGREDIENTS	
Molecular formula:	$C_{13}H_{11}N$
Molecular weight:	181.23
CAS Number:	153-78-6
EINECS Number:	205-817-8

4. FIRST AID MEASURES	
Eye contact:	Immediately flush eye with copious amounts of water for at least
	15 minutes. Get medical aid immediately.
Skin contact:	In case of contact remove contaminated clothing and immediately wash affected areas with copious quantities of water and soap for at least 15 minutes. Get medical aid immediately. Wash contaminated clothing before reuse.

Extinguishing media:       In case of fire use water spray, dry chemical powder, carbon dioxide, or alcohol-resistant foam.         Special hazards arising from the substance or mixture:       Carbon oxides, nitrogen oxides (NOX).         Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.       6.         ACCIDENTAL RELEASE MEASURES       Personal precautions:       Use proper personal protective equipment as indicated in Section 8.         Wear self-contained breathing apparatus, eye protection and gloves. Keep personal hygiene. Avoid contact with skin and eyes. Avoid dust formation. Avoid breathing dust, vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.         Do not let product enter the drains.       Sweep up and place the material in appropriate container for disposal and dispose of as hazardous waste. Ventilate area, clean up spills and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.         7.       HANDLING AND STORAGE         Handling:       Wear appropriate protective clothing - see Section 8. Wash hands and face thoroughly after handling. Use only under a chemical fume hood. Use with adequate ventilation. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.         Storage:       Store in a cool, dry, well-ventilated area. Keep container tightly closed. Store away from incompatible materials such as oxidizing agents. Light sensitive. Air-sensitive. Store under inert gas. Protect from light. <th></th> <th></th>		
Ingestion:       Never give anything by mouth to an unconscious person. Wash out mouth with water provided person is conscious. Call a physician.         5.       FIRE-FIGHTING MEASURES         Extinguishing media:       In case of fire use water spray, dry chemical powder, carbon dioxide, or alcohol-resistant foam.         Special hazards arising from the substance or mixture:       Carbon oxides, nitrogen oxides (NOX).         Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.         6.       ACCIDENTAL RELEASE MEASURES         Personal precautions:       Use proper personal protective equipment as indicated in Section al gloves. Keep personal hygiene. Avoid contact with skin and eyes. Avoid dust formation. Avoid breathing day, ayours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.         Do not let product enter the drains.       Sweep up and place the material in appropriate container for disposal and dispose of as hazardous waste. Ventilate area, clean up spills and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.         7.       HANDLING AND STORAGE         Handling:       Wear appropriate protective clothing - see Section 8. Wash hands and face thoroughly after handling. Use only under a chemical fume hood. Use with adequate ventilation. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.         5.       HANDLING AND STORAGE	Inhalation:	
out mouth with water provided person is conscious. Call a physician.         5.       FIRE-FIGHTING MEASURES         Extinguishing media:       In case of fire use water spray, dry chemical powder, carbon dioxide, or alcohol-resistant foam.         Special hazards arising from the substance or mixture:       Carbon oxides, nitrogen oxides (NOx).         Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.       6.         ACCIDENTAL RELEASE MEASURES       Use proper personal protective equipment as indicated in Section 8.         Vear self-contained breathing apparatus, eye protection and gloves. Keep personal hygiene. Avoid contact with skin and eyes. Avoid dust formation. Avoid breathing dust, vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.         Do not let product enter the drains.       Sweep up and place the material in appropriate container for disposal and dispose of as hazardous waste. Ventilate area, clean up spills and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.         7.       HANDLING AND STORAGE         Handling:       Wear appropriate protective clothing - see Section 8. Wash hands and face thoroughly after handling. Use only under a chemical fume hood. Use with adequate ventilation. Avoid formation of dust and aeroslos. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive free protection.         Storage:       Store in a cool, dry, well-ventilated area. Keep container tightly closed. St

Ventilate area, clean up spills and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.7.HANDLING AND STORAGEHandling:Wear appropriate protective clothing - see Section 8. Wash hands and face thoroughly after handling. Use only under a chemical fume hood. Use with adequate ventilation. Minimize dust generation and accumulation. Avoid contact with skin, eyes and clothing. Avoid ingestion and inhalation. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.Storage:Store in a cool, dry, well-ventilated area. Keep container tightly closed. Store away from incompatible materials such as oxidizing agents. Light sensitive. Air-sensitive. Store under inert gas. Protect from light.8.EXPSURE CONTROLS / PERSONAL PROTECTIONEye protection:Wear appropriate protective safety glasses with side-shields conforming to EN166, chemical safety goggles or face-shield (min. 8-inch) as described by OSHA's eye and face protection		
Environmental precautions:Do not let product enter the drains.Spills/Leaks:Sweep up and place the material in appropriate container for disposal and dispose of as hazardous waste. Ventilate area, clean up spills and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.7.HANDLING AND STORAGEHandling:Wear appropriate protective clothing - see Section 8. Wash hands and face thoroughly after handling. Use only under a chemical fume hood. Use with adequate ventilation. Minimize dust generation and accumulation. Avoid contact with skin, eyes and clothing. Avoid ingestion and inhalation. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.Storage:Store in a cool, dry, well-ventilated area. Keep container tightly closed. Store away from incompatible materials such as oxidizing agents. 		regulations. Use equipment for eye protection tested and

	approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).
Skin protection:	Wear appropriate protective gloves to prevent skin exposure, as defined in EU Directive 89/686/EEC and the standard EN 374 derived from it.
Body protection:	Appropriate protective clothing, overalls.
Respiratory protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N95 (US) or type P1 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

9. PHYSICAL AND CHEMIC	AL PROPERTIES
Appearance:	White to brown solid.
Odour:	Data not available / does not apply.
Odour threshold:	Data not available / does not apply.
pH:	Data not available / does not apply.
Melting point:	124–130 °C.
Boiling point:	Data not available / does not apply.
Flash point:	Data not available / does not apply.
Evaporation rate:	Data not available / does not apply.
Flammability:	Data not available / does not apply.
Flammability or explosive	Data not available / does not apply.
limits:	Data not available / does not apply.
Vapor pressure:	Data not available / does not apply.
Vapor density:	Data not available / does not apply.
Relative density:	Soluble (ether, alcohols).
Solubility:	
Partition coefficient	3.00.
n-octanol/water :	Data not available / does not apply.
Auto-ignition temperature:	Data not available / does not apply.
Decomposition temperature:	Data not available / does not apply
Viscosity:	

	10.	STABILITY AND REACTIVITY
--	-----	--------------------------

Chemical stability:	Stable under recommended storage conditions.
Conditions to avoid:	Data not available.
Incompatibilities with other materials:	Strong oxidizing agents.
Hazardous decomposition products:	Carbon oxides, nitrogen oxides (NOx).

11. TOXICOLOGICAL INFO	RMATION
RTECS #:	LL5075000.
Acute toxicity:	LD50 Intraperitoneal: mouse: 132 mg/kg.

Material Safety Data Sheet 2-Aminofluorene

Skin corrosion/irritation:	Data not available.
Serious eye damage/eye irritation:	Data not available.
Respiratory or skin sensitization:	Data not available.
Germ cell mutagenicity:	Data not available.
Carcinogenicity:	
Rat:	Oral: Tumorigenic: Neoplastic by RTECS criteria. Liver: Tumors. Skin
	and appendages: Other: Tumors.
Rat:	Oral: Tumorigenic: Equivocal tumorigenic agent by RTECS criteria.
Det	Liver: Tumors. Kidney, Ureter, Bladder: Tumors.
Rat:	Tumorigenic: Equivocal tumorigenic agent by RTECS criteria.
Mouse:	Oral: Tumorigenic: Equivocal tumorigenic agent by RTECS criteria.
Maura	Liver: Tumors. Kidney, Ureter, Bladder: Tumors.
Mouse:	Skin: Tumorigenic: Neoplastic by RTECS criteria. Lungs, Thorax, or
	Respiration: Tumors. Gastrointestinal: Tumors.
Mouse:	Implant: Tumorigenic: Equivocal tumorigenic agent by RTECS
	criteria. Kidney, Ureter, Bladder: Tumors. Tumorigenic: Tumors at
	site or application.
Reproductive toxicity:	Data not available.
Specific target organ toxicity:	Single exposure: Data not available.
	Repeated exposure: Data not available.
Aspiration hazard:	Data not available.
Signs and symptoms of	To the best of our knowledge, the chemical, physical and
exposure:	toxicological properties have not been thoroughly investigated.
Target organs:	Data not available.
Potential health effects:	Eye: May cause serious eye irritation.
	Skin: May be harmful by skin absorption. May cause skin irritation.
	Ingestion: Harmful if swallowed.
	5
	Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
	Chronic: No information found.

#### 12. ECOLOGICAL INFORMATION

Data not available.

#### 13. DISPOSAL CONSIDERATION

Observe all federal, state and local environmental regulations. Mix or dissolve the material in a combustible solvent and burn in chemical incinerator equipped with an afterburner and scrubber. Contact a licensed professional waste disposal service to dispose of this material.

14. TRANSPORT IN	IFORMATION
ADR / RID	Not classified as hazardous for transport.
IMDG	Not classified as hazardous for transport.
ΙΑΤΑ	Not classified as hazardous for transport.

### 15. REGULATORY INFORMATION

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

### 16. ADDITIONAL INFORMATION

None.
