

THE MOST COMPREHENSIVE LINE OF ELISAS FOR THROMBOSIS, HEMOSTASIS AND FIBRINOLYSIS

Our domain of expertise

- Thrombosis
- Hemostasis
- Auto-immunity: HIT, ACA/APA, Anti-B2GPI, Anti-II,...
- Fibrinolysis

Heparin Induced Thrombocytopenia Mechanisms

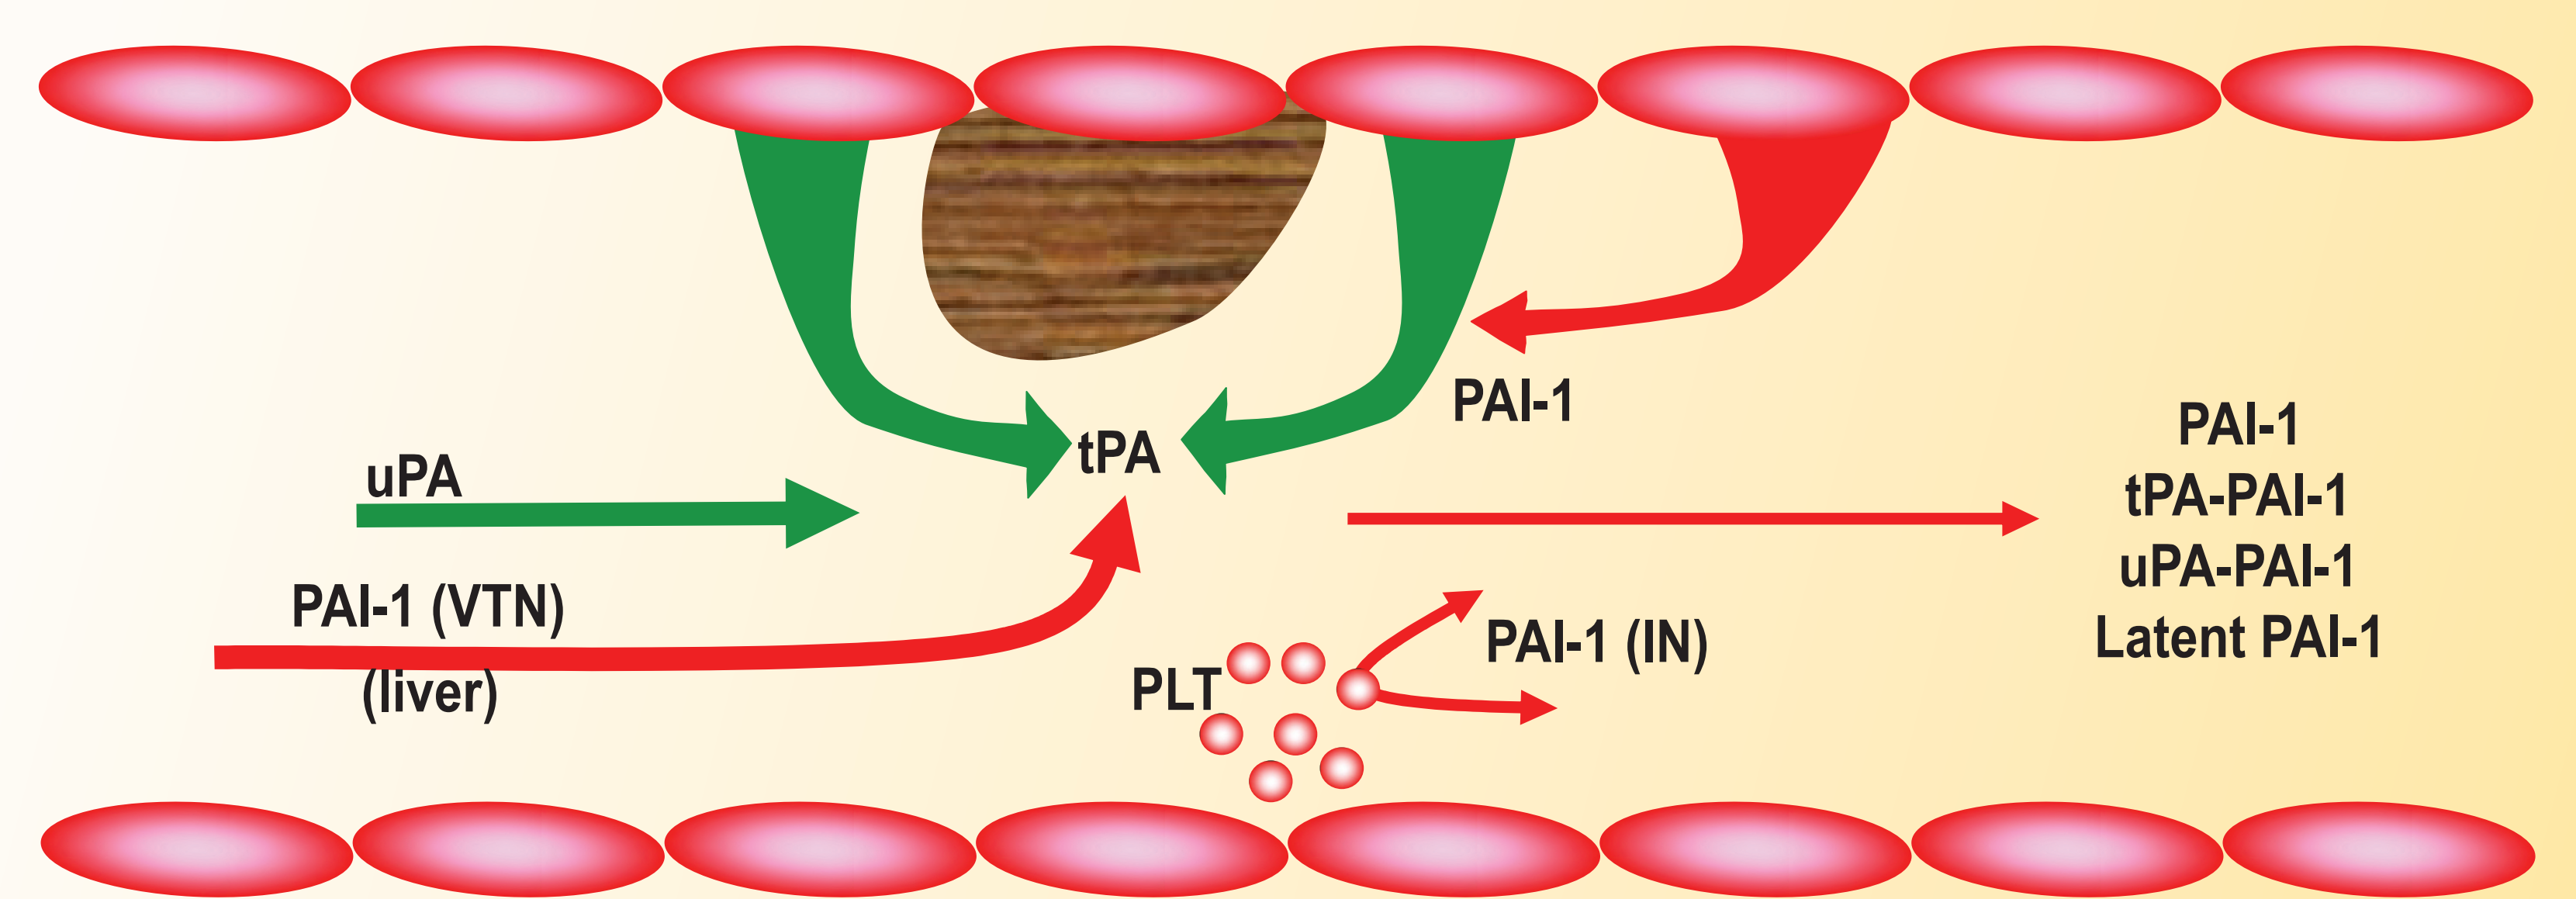

Microparticles in pathology

Many applications (IVD & Research)

- Neurological
- Cardiovascular epidemiology
- Studies on Fibrinolysis
- Thrombotic diseases
- Lipid metabolism
- Diabetes
- Cancer research
- Cell culture

Optimized assays

- Quality control included
- Standardization/International standard
- Ready to use methods
- Reliability
- High stability of reagents
- Accuracy
- Disposable components
- Flexibility
- High sensitivity

Initiation and regulation of Fibrinolysis

WE DESIGN THE LABORATORY ASSAYS YOU NEED
HYPHEN BIOMED: the expert company in Hemostasis
