

Medicago SmartBuffers

Form# AM05
03-2011

Why choose Medicago?

- ◆ Pioneers in the development and manufacturing of SmartBuffers with 16 years of solid experience
- ◆ World-class quality
 - ◆ Chemicals and reagents of the highest quality
 - ◆ ISO 9001:2008 and 13485:2003 certified
 - ◆ cGMP production
- ◆ Wide range
 - ◆ Standard buffers
 - ◆ Customized buffers

SmartBuffers

Medicago's SmartBuffers is a range of Biological buffers, supplied in a pre-mixed dry format as tablets or in pouches.

SmartBuffers are

- ◆ formulated from analytical grade chemicals
- ◆ exactly pre-weighed with pre-set pH
- ◆ stable at room temperature for at least 3 years
- ◆ manufactured in cGMP environment

Why use SmartBuffers?

- ◆ Smart Format
 - ◆ Pre-mixed dry format as tablets or in pouches – Quick and easy-to-use
- ◆ Reproducibility and Consistency
 - ◆ Guaranteed reproducible and consistent results – each time.
- ◆ Environmentally Friendly Alternative
 - ◆ Switching to Medicago SmartBuffers reduces greenhouse gas emissions from transportation by up to 99 %
 - why ship water around the world?

Why use SmartBuffers?

- ◆ Save Time and Money
 - ◆ Using Medicago SmartBuffers™ saves up to 30 minutes of laboratory work – each time!
- ◆ Ultimate Convenience
 - ◆ Dissolve and you are ready to go in minutes!

Why transport water?

1 unit of liquid buffer:
100 litre = 100 kg

SmartBuffer tablets:
100 litre = 1 kg

Advantages of SmartBuffers

- ◆ Quick and easy-to-use
- ◆ Less time spent in the laboratory
- ◆ Increased precision
- ◆ Guaranteed lot-to-lot reproducibility
- ◆ No need of calibrating pH
- ◆ No weighing and calculation errors
- ◆ Save space in stock rooms
- ◆ Long shelf life in comparison to liquid buffers

SmartBuffer™ Applications

- ◆ Cell and tissue culturing
- ◆ Western/Southern/Northern Blots
- ◆ Immunoassays/ELISA procedures
- ◆ Immunohistochemistry
- ◆ Molecular Biology
- ◆ Nucleic acid electrophoresis
- ◆ Protein electrophoresis
- ◆ Microbiology
- ◆ Coating procedures
- ◆ Biochemistry/Clinical chemistry

SmartBuffers Product Range

- ◆ Phosphate Buffered Saline (PBS)
- ◆ Phosphate Buffered Saline with Tween 20™(PBS-T)
- ◆ Tris Buffered Saline (TBS)
- ◆ Tris Buffered Saline with Tween 20™ (TBS-T)
- ◆ Tris Acetate EDTA (TAE) buffer / Tris Borate EDTA (TBE) buffer
- ◆ Glycine-HCl buffer
- ◆ Carbonate bicarbonate buffer
- ◆ Buffered Sodium Citrate
- ◆ Tris-Glycine / Tris-Glycine-SDS
- ◆ Tris-EDTA (TE) buffer
- ◆ Tris-HCl buffer
- ◆ Sodium Phosphate buffer
- ◆ SSC buffer
- ◆ Sodium Acetate buffer
- ◆ EDTA buffer
- ◆ Borate buffered saline
