

## ZYMUTEST PF4

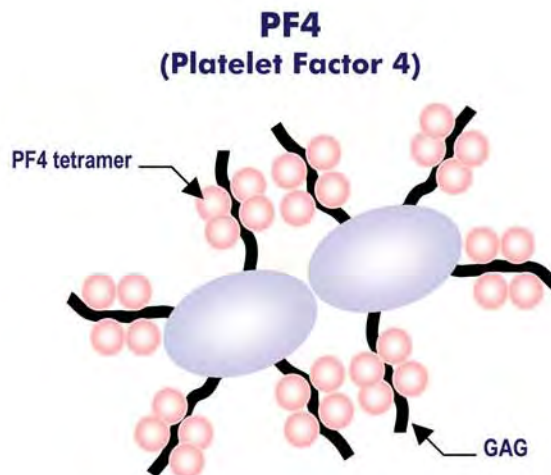

### Assay of Platelet Factor 4 by ELISA

Ref. ARK006A

#### PF4?

A platelet  $\alpha$ -granule release protein, with a MW of 7.7 KD, presented as a tetramer (MW  $\approx$  30 KD).

PF4 tetramer binds to cell surface (especially endothelium) glycosaminoglycans (GAG).

- Homogeneous reactivity whatever the PF4 presentation
- Insensitive to the presence of heparin
- Standardised with the International Standard (NIBSC)
- High sensitivity
- High specificity
- Detection threshold < 0.1 ng/mL
