The 2012 Coagulation/Hemostasis Technologist Award for Excellence

ANIARA WANTS TO CATCH A STAR

Every year, the ANIARA CHTAE Committee recognizes a Special Coagulation Technologist in the North American continent by awarding one technologist "The 2012 Coagulation/Hemostasis Technologist Award for Excellence" and a check in the amount of \$2,000. We choose the recipient from a large pool of nominations that we receive every year. ANIARA will not participate in the selection process. The selection is made by a committee of volunteer peers. The committee will review the applications and vote on who should receive the award.

To nominate your technologist for "The 2012 Coagulation/Hemostasis Technologist Award for Excellence," please visit the Aniara web site at www.aniara.com and fill out the nomination form. Guidelines are below:

- Doctors, Technologists, Supervisors of Special Coagulation field residing anywhere in North America can nominate their fellow technologists for this award. We will need details of the nominee's qualifications, experience, abilities, achievements, and any other relevant information explaining why they consider the technologist to be eligible for the award. Please fill out the nomination form on our web site, www.aniara.com.
- Previous honorees of the ANIARA CHTAE award in the past are not eligible for renomination.
- In order to make a timely decision, and inform the candidates sufficiently in advance, all nominations must be received by **November 1, 2012**. Nominations received after that date will be considered for next year's award.

If you have any questions, or need more information, please contact us at CHTAEaward@aniara.com.
