

SMART REAGENTS

D(+) Glucose Reagent 20%

Features

- High purity
- Protected from contamination
- Exactly pre-weighed powder mix
- Hassle free - simply add water
- Ideal for standardizing laboratory work

Product description

D-glucose, also referred to as dextrose monohydrate, is a very important carbohydrate in biology and it is biologically active.

Medicago's Glucose Reagent is supplied as pre-weighed powder in sealed pouches giving 1000 ml of D(+) glucose 20% when dissolved in deionized water.

Applications

- Sugar solution routinely used in laboratories
- Use in growth media

Directions for use

Empty one pouch of the glucose reagent in a laboratory flask or beaker placed on a magnetic stirrer. Add 200 ml to 300 ml of deionized water and stir for a few minutes. Adjust the volume up to 1000 ml, stir until full dissolution and the solution is ready to use.

Specifications

Format	Exactly pre-weighed powder
Concentration	Glucose 20%
Volume	1000 ml
Shelf life	Three years after production date

Shipping and storage

The Glucose reagent is shipped at room temperature. Store the pouches in a dry place at room temperature. Shelf life is three years.

Certifications

Medicago's laboratories and manufacturing site in Uppsala are ISO 9001:2008 and ISO 13485:2003 certified. Each stage of the manufacturing process is controlled and monitored by stringent quality control procedures to guarantee the highest possible quality and lot-to-lot reproducibility.
