4. First-aid measures

Ingestion: If inhaled, remove to fresh air. If breathing becomes difficult, get medical attention.
Inhalation: Movement of exposed individual to area with fresh air. If irritation persists, get medical attention.
Skin contact: Immediately wash skin with soap and water.
Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. If irritation persists, get medical attention.

5. Fire-fighting measures

Flammability of the product: Non-flammable

Extinguishing media:	Use dry chemical powder, water spray, fog or foam.
Hazardous thermal (de)composition products:	Emits toxic fumes under fire conditions.
Special protective actions for fire fighters:	Wear breathing apparatus and full turnout gear.

6. Accidental release measures

Personal precautions:	Safety goggles. Full suit. Wear suitable respiratory equipment. Boots. Gloves.
Spill and leak:	Use appropriate tools to put the material in a waste disposal container. Finish cleaning by spreading water on the contaminated surface and ventilate the room.

7. Handling and storage

Handling:	Avoid inhalation. Avoid contact with eyes, skin and clothing. Avoid prolonged or repeated exposure. Eating, drinking and smoking in working areas is prohibited. Wash hands before and after use. Remove contaminated clothing and protective equipment before entering eating areas.
Storage:	Store at room temperature in tightly closed container. Use original container. Store away from oxidizing agents.

8. Personal protection/exposure controls

Protective clothing:	
Personal protective equipment:	Respiratory Protection: Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Respiratory protection is not required. Where protection is desired, use multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges. Use gloves and goggles.
Engineering measures:	Safety shower and eye bath. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.
Hygiene measures:	Wash hands after handling compounds and before eating, smoking and using lavatory.
